THE **AVERAGE MAN'S FIGHT**

Isn't Financed by Money Out of State Treasury

YOUR HELP NEEDED The fight to defeat the Sparks income tax di-

version amendment is the fight of the little tax payers of Alabama to protect themselves and their property. The big taxpayers are strong enough and smart enough to protect themselves. The Alabama Home, Farm and Business Protective Association as its name implies, is an organization to fight the battle of the average man and woman of this State. The money tit is spending to send speakers into every nook and cranny of Alabama, to buy advertising space in newspapers, to spread the alarm among Alabama's taxpayers, is made up of small, voluntary contributions which are being sent in by average men and women. The Alabama Home, Farm and Business Protective Association cannot draw on the State Treasury to finance its fight. It is dependent on your contributions and the contributions of your neighbor. YOUR PROPERTY IS IN DANGER! Five dollars or one dollar will help.

You who care to help finance its fight may send check or money order direct to headquarters.

Sees Quick War Recovery for Japan

Since history consistently has shown that predominantly agricultural nations recover from war faster than highly industrialized nations, Japan will recover from the war faster than the United States, Dr. John W. Stanton, former war department consultant on Japan and professor at

"Two-thirds of the Japanese population before the war were engaged directly or indirectly in agriculture and fishing," he said. "Only a third were engaged in industry and commerce, compared to two-thirds in Germany and similarly high proportions in the U. S. and Britain, each of whom will find recovery more difficult.

SURPLUS GOODS:

Sales Policy Hoping to speed the turnover of material and permit wider distribution among dealers during the immediate period of scarcity, the department of commerce reported that most surplus war goods would now be sold on a fixed price basis rather han sealed bids.

The department revealed its policy change at the same time that it announced 300 million dollars worth of material is being made available to wholesalers and retail ers, with items including chicken wire, trucks and other vehicles, hardware, shotguns and shells. Under the new selling plan, material will be disposed of to wholesalers and retailers under OPA ceilings, with allowances for profit margins. Thirty days credit will be extended. An estimated 80 per cent of dollar volume of all surplus sales will fall under the new pricing

TIRE REPORT: In renewing monthly reports, the Rubber Manufacturers association includes a breakdown of figures showing production in civilian passenger car, truck and bus casings and in tubes for 1941 and 1945 to indicate the present tire situation. Production of passenger car casings for the first six months of 1941 totalled 29,040,711 units, with 5,365,-459 units held in inventory. Estimated production for the six months ended last June 30 was 10,020,817

units, with only 950,412 in inventory.

"Come Let Us Reason Together"

!! WARNING!! Don't Be Misled By "New Car" Talk

The car you own now may have to last you for many more months-because new cars, when they come, will be few, and likely will be rationed to essential users. It will be many months, perhaps a year or more, before the car shortage is relieved to any extent. And right now the whole auto industry is being threatened by strikes.

In The Meantime . . . Conserve Your Old Car

Utilize our car-conservation facilities, regularly. We have modern tools and equipmentexpert, trained mechanics—and a reputation for results that please and satisfy.
